Taste of música

A brand new restaurant in Leiden, Netherlands matches authentic Latino flavours with atmospheric surroundings and sounds of South America.

Credits
 Installer: Number One
 Location: Tabú Latin Food and Drinks - Leiden, Netherlands

Bringing the best Latin American food and drink to the South Holland city of Leiden is the new Tabú restaurant.

Outfitted in a modern cantina style, Tabú delivers an exciting dining experience and its very own cocktail bar.

If the sights and smells don't immerse you, the sounds of the continent's distinctive music style will with the numerous Monitor Audio speakers strategically placed throughout the restaurant by installer Number One.

Monitor Audio's ultra-versatile **Vecta V240** speakers can be found in the corners of the restaurant, blending into the surroundings.

In the ceilings, Number One used **C165-T2** In-Ceiling speakers and slim **CS180** In-Ceiling speakers to deliver music from above. Concluding the audio experience, **IWS-10** In-Wall Subwoofers were used for powerful bass.

All of the speakers in the restaurant are run from two Monitor Audio **IA150-8C** Amplifiers, connected to streamers and DJ equipment.

Lights, camera, action!

This incredible home cinema in Glasgow, UK is bound to make any film fanatic's jaw drop.

The home cinema is comprised of a 4K projector, Denon Atmos AV receiver, a UHD Blu-ray player, a 4K streaming box and thirteen Monitor Audio speakers.

The left, centre and right channels are made up of three **CP-WT380IDC** In-Wall speakers.

The four surround channels use **CP-WT380** In-Wall speakers. Four **CSS230** In-Ceiling speakers are used for the Dolby Atmos system and two **IWS-10** In-Wall Subwoofers with a **IWA-250** Amplifier round off the whole experience.

All of the speakers are either hidden behind the screen or behind the acoustically transparent walls.

Listen in luxury

A newly refurbished home in London, UK receives a complete overhaul featuring luxurious furnishing, high-tech entertainment equipment and discreet audio.

This Victorian terrace home, situated in Belgravia - one of London's most affluent districts - has received an incredible transformation, adding new living spaces, bathrooms and a home cinema.

The home cinema uses our Controlled Performance **CP-CT280-IDC** in-ceiling speakers, **C265-FX** In-Ceiling speakers and a **IWS-10** In-Wall Subwoofer.

There's even more sound throughout the home, including Controlled Performance **CP-CT260** In-Ceiling speakers in the kitchen, **CP-CT150** In-Ceiling speakers in the master bedroom, **C165-T2** In-Ceiling speakers in the bathroom and **Climate 60** On-Wall speakers in the garden area at the back of the house.

In-room entertainment

The luxurious Saxon Hotel, Villas and Spa in Johannesburg just received an entertainment overhaul in their extravagant suites with help from local installers Panavision Evolve.

Large HD TVs were fitted in the suites along with our **SB-3** or **SB-2** Passive Soundbars and a Denon AV receivers. The entertainment unit has been made specifically so the TV and Soundbar fit flush inside.

Soundbars are a great all-in-one solution for upgrading a television's sound. The **SB-3** Passive Soundbar features a left, centre and right channel, in one enclosed product, using technology borrowed from our hi-fi speaker ranges.

Poolside cinema

The talented team at InTech found unique solutions for building a powerful home cinema into their recent smart home installation in Tel Aviv, Israel.

This new, ultra modern home in the Mediterranean city of Tel Aviv features advanced audio throughout the house, inside and out.

The home cinema / bar uses a creative mixture of our floorstanding **Silver 300** speakers for the left and right channel, with a **SoundFrame 2** In-Wall speaker as a centre channel, and a **Silver W12** Subwoofer all cleverly hidden behind a fabric wall. **C265-FX** In-Ceiling speakers are used as surround channels.

On the poolside terrace, a pair of **Climate 60** speakers were installed in the dining area.
